July 17, 2007

Alberta Mountain Air Heating has been working with Budrich Industries since the fall of 2004.

We have found their service and support to be second to none.

The product is of the finest quality, the delivery and supply always excellent.

Brad and Shane have always made an effort to keep us informed of any changes or pricing increases well in advance.

The staff of Budrich will go out of their way to complete our orders and service our company.

We feel that Budrich is run like the businesses of yesterday with the personal relationships that seem almost impossible to find in the present market.

We wish Budrich continued success and hope that our relationship will last for many years.

Alberta Mountain Air
Heating & Air Conditioning
